

Cybersecurity Awareness, reimagined as Human Risk Management.

AI-driven platform to **measure, manage & reduce** human cyber risk across all forms of social engineering and behavioral threats.

THE HUMAN RISK

60% of breaches involve a human element
Verizon DBIR 2025

\$4.8M avg phishing breach cost
IBM 2025

>90% of orgs hit by phishing in 2024
APWG

AWARENESS · SIMULATION · SCORING · INSIGHTS

AWARENESS

Engaging modules & rebrandable content, in EN/FR/AR.

SIMULATION

AI phishing/smishing/quishing & BEC, adaptive per user.

SCORING

Multi-factor human risk scoring per user, role & team.

INSIGHTS

Org-level risk indicators, trends & high-risk profiles.

PLATFORM CAPABILITIES · 1 / 2

All you need to **train, engage & simulate**.

Cybersecurity Awareness Training

Interactive modules building a strong security culture across teams.

AI-Generated Training Courses

Org- and role-specific lessons auto-generated by AI for max relevance.

Course Quizzes

Built-in knowledge checks measure retention — not just course completion.

Direct Course Enrollment

Assign specific courses to users on demand — no phishing campaign required.

Quick Awareness Kit

Ready-to-edit posters & awareness emails — raise awareness without launching a phishing test.

Simulated Phishing Campaigns

Realistic attack scenarios test awareness and response across the org.

AI-Powered Targeted Phishing

Adaptive scenarios based on user behavior, risk level & org context.

Real-Page Cloning

Build ultra-realistic landing pages by cloning real webpages directly.

Bring Your Own Content

Insert custom HTML phishing emails prepared outside the platform.

All you need to **measure, manage & integrate.**

AI-Driven Insights & Risk Scoring

AI analyzes results & behavior to deliver org risk scoring & indicators.

High-Risk User Identification

Spot the most vulnerable profiles & prioritize training accordingly.

Departmental Risk Mapping

Pinpoint your most exposed departments with org-unit risk scoring.

Campaign Reports & KPIs

Executive-ready reports per campaign with click rate, response time & risk indicators.

Real-Time Dashboards

Track campaign effectiveness & user progress with automated dashboards.

Multilingual Interface & Courses

Available in English, French & Arabic to match your workforce.

Microsoft 365 Integration

Seamlessly sync users from O365 or bulk-upload them via CSV.

Email Security (SPF, DKIM, DMARC)

Instantly check DNS records to detect issues & prevent domain spoofing.

Standards-Aligned Compliance

Built to support NCA ECC, SOC 2 & ISO 27001 awareness controls.

PROVEN OUTCOMES

Measurable risk reduction, **in weeks not years.**

42%

Click-rate reduction

Lower probability of a critical breach.

87%

Faster threat reporting

SOC neutralizes threats before they spread.

<15 min

Time to first campaign

Onboard via M365 sync or CSV bulk-upload.

HELPS YOU COMPLY WITH

NCA ECC

SOC 2

ISO 27001

Human awareness is a required control across major cybersecurity frameworks. ClickNoRisk gives you the evidence trail auditors expect.
